Career Objective

Hello there. I'm a **Flutter developer**. I've been practicing in the industry for the last one and a half years, during which time I developed high-quality user-oriented applications efficiently. I'm passionate about delivering seamless, cross-platform experiences. I have a deep understanding of the backend, state management, and responsive design. My other skills are SEO, Web development, and Lead generation. I pride myself on doing quality work and maintaining great communication.

I want to join a creative team where I could be able to learn more, apply my experience, and make a great difference in the development industry..

Projects

1. ChatBot AI

- Developed an AI-powered chatbot similar to Gemini.
- Implemented user authentication using Firebase for secure access.
- Integrated light and dark themes for improved user experience.
- Utilized Provider for state management.

2. E-Commerce App

- Built an app with product browsing, search, and purchase functionality.
- Implemented cart and wishlist for personalized shopping.
- Used Firebase authentication for secure user accounts.
- Integrated GetX and Provider for state management.
- Added offline access with SQLite for seamless data persistence.
- Applied advanced animations for enhanced UI interactivity.

3. E-Wallet App

- Enabled money transfers, deposits, and transaction history.
- Used Firebase for secure authentication.
- Applied GetX for efficient state management and smooth performance.

4. COVID Tracker App

- Displayed real-time COVID-19 stats, including deaths, recoveries, and cases.
- Implemented country-wise search functionality.
- Enhanced user experience with shimmer effects, animations, and charts.

5. Tic-Tac-Toe Game

- Built a player vs. AI Tic-Tac-Toe game in Flutter.
- Designed an intelligent AI opponent with smart game logic.
- Added a scoreboard for tracking wins.
- Used showDialog to display match results dynamically.

6. Todo App

- Created a task management app with add, edit, and delete functionality.
- Included a search feature for quick task access.
- Focused on user-friendly interface and efficient task handling.

Technical Skills

- **Languages:** Dart, Kotlin, JavaScript, TypeScript
- **Frameworks:** Flutter, React Native, Express.js
- **State Management:** Bloc, GetX, Provider
- **Database:** Firebase, Supabase, SQLite
- **API Integration:** RESTful APIs
- **Tools & Technologies:** Node.js, Git, GitHub, Figma, FlutterFlow, DhiWise
- **Design:** Responsive Design, UI/UX Principles, Animations, Light/Dark Modes

Education

Bachelor of Social Science in Economics

National University | 2026
